Rents are also removed from two store-rooms, as well as it in the rooms above them, and a barber's shop, afording a language in force.

FARM LANDS for SALE. - The HALINOIS CENTRAL BAILROAD COMPANY is now prepared to TWO MILLION OF ACRES

FARMING LANDS,

IS TRACTS OF FORLY ACRES AND USWARD
ON
LONG CREDITS
And at
LOW RATES OF INTEREST.
These Lands were granted by the Government to aid in the
sonstruction of the Railroad, and include some of the richest
and most feetile Prairies in the State, interspersed here and
there with magnificent groves of oak and other timber. The
Road extends from Chicago on the north-east to Cairo at the
south, and from themse to Galena and Danielth, in the northwest extreme of the Stave, and as all the lands lie within fifteen
miles on each side of this Road, ready and cheap means are
afforded by it for transporting the products of the lands to marters. Moreover, the rapid growth of flourishing towns and villages along the line, and the great increase in population by immigration, &c., afford a substantial and growing home demand
for farm produce.
The soul is a dark, rich mold, from one to five feet in deeth, is

made for breaking, ready for Corn or Whest, at from \$2 to \$2 59 per acre. By judicious management the land may be plowed and fenced the first, and under a sizk state of cultivation the second wear.

Corn, Grain, Cattle, &c., will be forwarded at reasonable cates to Chicago for the Eastern market and to Cairo for the Southern. The larger yield on the cheap lands of Hilmols over the bith-priced land in the Eastern and Middle Size's is known to be much more than sufficient to pay the difference of transportation to the Eastern and Middle Size's is known to be much more than sufficient to pay the difference of transportation to the Eastern and Middle Size's is known to be much more than sufficient to pay the difference of transportation to the Eastern and Middle Size's is known their to the reare so conventione for transport the many miles this and to there for the extension of the size and to many miles this and there of the water-corn the water course. The water course, the prices fixed.

MORRIS FEMALE INSTITUTE, at Morriss town, N. J., 11 hour by ears from New York, pleasantly situated, at \$1.25 per acre, are not so good investments as the axid of this Company at the prices fixed.

The same remark bold good in relation to the lands in Kanasa and Nebrasks, for although vacant lands may be found neares the water courses, the distance to market to make the word of the size of the water communications, here was a the axid of this Company at the prices fixed.

The great fertility of the lands now offered for sale by this goods, and the reduced prices of their products; and to that extent precisely are the incomes from their farms, and of course they water communications, here were the water, which is company, and their consequent yield over those of the size of the size

of contract, and the others annually thereafter. The last payement will become due at the end of the start year from the date of the contract.

INTEREST WILL SE CHARGED AT ONLY THREE PER CENT PER ANNUM.

As a security to the performance of the contract, the first two rears' interest must be paid in advance, and it must be understood that at least one-tenth of the land purchased shall yearly be brought under cultivation. Longer credits, at 6 per cent per unnum, may be negotiated by appeal application. Twenty per cent from the credit price will be deducted for cash. The Company's construction bonds will be received as cash.

Ready-framed Farm Buildings, which can be set up in a few fave, can be obtained from responsible persons.

They will be 12 feet by 26 feet, divided into one fiving and three bedrooms, and will cost complete, set up on ground closest any where along the road, \$150 in cash, exclusive of transportation. Larger buildings may be contracted for at proportionate rates. The Company will forward all the materials for such buildings over their road promptly.

Special arrangements with dealers can be made to supply shows purchasing the Company's lands with feacing materials, sgricultural tools, and outfit of provisions in any quantify at the lowest wholesale prices.

It is believed that the price, long credit, and low rate of interest charged for these lands, will enable a man with a few hundred dollars th cash and erdinary industry to make himself independent before all the purchase money becomes due. In the mean time, the rapid settlement of the country will probably have increased their value four or five fold. When required, an appreciated of the Railroad lands throughout the State—absorbed on the desired lands and well-known farmers living in the neighborhood of the Railroad lands throughout the State—absorbed containing numerous instances of successful farming, signed by respectable and well-known farmers living in the neighborhood of the Railroad lands throughout the State—absorbed containing rea
